Visitor parking

Kindly note that there is no free parking on the University of Alberta campus between 7 a.m. and 10 p.m. Monday through Friday, statutory holidays excluded, as the University has a policy of operating parking on a self-sustaining basis.

It is hoped that your stay on campus will be pleasant and that your parking needs will be met. We would appreciate hearing of any difficulties you experience.

Visitor parking is available in the carparks, at other areas so designated, and at meters. A daily charge is made at the time of entry to the carparks or designated areas. Rate and period of meter operation are as indicated on the meters.

Areas where parking is prohibited

Do not park in any of the following areas at any time:

- private stalls and 24-hour reserved areas,
- University service vehicle stalls and unloading areas,
- marked fire routes or driveways,
- marked pedestrian areas,
- landscaped areas,
- areas marked as reserved for a specific purpose,
- under HUB.

Metered parking (2-hour duration)

Corbett Hall
Lister Hall
114 Street between 87 and 89 Avenues
General Services Building (east side)
111 Street north of 89 Avenue
St. Stephen's College (east side)

Attendant-operated parking

Stadium Carpark
Windsor Carpark
U Zone *(enter via 90 Avenue)*
M Zone *(enter off 116 Street at 91 Avenue)*
X Zone *(until 4 p.m. only)*
E Zone
G Zone
Z Zone *(enter off 112 Street at 88 Avenue)*
B Zone *(enter off 114 Street)*
J Zone *(enter off 114 Street)*

Please note: Hospital visitor parking is accommodated by lots entered off 85 Avenue east of 112 Street.

Further information on parking:

Parking Office
Arts Workshop 1
432-3811 or 432-2236
Campus Security, 432-5252.

Libraries

D.E. Cameron Library
Health Sciences Library (fifth floor)
Science Library (fourth and third floors)
Government Publications (third floor)
Undergraduate Collection (second floor)
Reserve Reading Room; Circulation (main floor)
Special Collections; Micromaterials and *Interlibrary Loans* (basement)
Also has *Administrative Offices* of the Library system.

Computing Science Reading Room, 601 General Services Building. Small collection of books and periodicals on computing science.

Government Publications, third floor, Cameron Library. Large collection of government publications from Canada, Great Britain, and the United States, plus most of the documents from the United Nations and other international agencies. Primarily materials related to the humanities and social sciences. Not listed in the Union Catalogue.

H.T. Coutts Library, east wing, Education Centre South. Books and periodicals for the support of the Education Faculty curricula. Curriculum Laboratory consists of the *Curriculum Library* and the Curriculum Materials Preparation Area or CMPA. Contains print and non-print materials designed to be used in school classrooms and facilities for student production materials.

John W. Scott Library, University Hospital. Small basic collection in the field of medicine primarily for use by faculty and hospital personnel.

John Alexander Weir Memorial Law Library, second floor, Law Centre. Laws, statutes, case reports, digests, textbooks, and legal periodicals, plus relevant official publications, mainly from common law jurisdictions including Canada, the United States, Great Britain, and other Commonwealth countries.

Mathematics Reading Room, 528a Central Academic Building. Intended for faculty and senior students in mathematics. Contains all mathematical periodicals to which the Library subscribes.

Physical Sciences Reading Room, Chemistry Centre. Advanced and research materials. (Computing science books temporarily transferred to the *Computing Science Reading Room.)*

Rutherford Library, North Rutherford contains the *Union Catalogue* (for the whole library system), the *Humanities and Social Sciences Collection* and *Reference Services*. South Rutherford houses the *Periodicals Reading Room*, the School of Library Science, the *University Archives*, and extensive study space.

Adult Student Centre, University Extension Department, 126 Corbett Hall. Records, cassettes, films, slides, books, and pamphlets.

Bibliothèque de la Faculté Saint-Jean. Collection générale et bilingue, salle de références, périodiques.

Boreal Institute for Northern Studies, CW401 Biological Sciences Centre. Research collection for the Arctic, sub-Arctic, and Boreal Forest regions of Canada and other circumpolar countries. Some material on Antarctica.

Map Room, University Map Collection, west wing *(basement)* Tory Building. Worldwide variety of maps and cartographic materials.

Population Research Laboratory, Sociology Department, 1-62 Tory Building. Specialized research collection of census and local population materials. Not a lending library, but is open to students and faculty.

The University of Alberta
1980-1981

campus map and visitors' guide

The first University of Alberta classes were held in 1908, but until the completion of Athabasca Hall in 1911 the University had no permanent quarters. This archival photograph shows Athabasca shortly after it was built.

Welcome to the University of Alberta, the first and still the largest university in the Province of Alberta.

For most people arriving on campus, the initial impression is one of buildings—buildings of a variety of shapes, sizes, colors, and architectural styles. In fact, the University campus comprises more than 70 buildings spread over 200 acres. The oldest structures pre-date the First World War, and the newest are still under construction.

Don't be fooled though; the University of Alberta is much more than a collection of buildings. Above all else, it is people.

From the very beginning the story of the University has been one of people. At the outset there was A.C. Rutherford, the first premier of Alberta, who had a vision of a Provincial university and was undaunted by those who opposed the founding of a university "beyond the last fringes of civilization." And there was Henry Marshall Tory, the University's first president. While at McGill University, Dr. Tory had overseen the founding of its west coast college which evolved into the University of British Columbia; during his 20 years as Alberta's president, he founded the Khaki University for First World War servicemen; and when he left Alberta in 1928 it was to be the first president of the National Research Council of Canada. During his 'retirement', Dr. Tory founded Carleton University.

Today a great many people make up the University of Alberta: students, teachers, and researchers—some recognized as being among the best in the world—and a host of other people working in the numerous service areas necessary to keep a large teaching and research institution functioning. On any weekday during the winter session there may be more than 30,000 people within the boundaries of the greater campus (which takes in the University Hospital, the W.W. Cross Institute, etc.), a population similar to that of Alberta's fourth largest city.

The people of this "city within a city" join in welcoming you. If you have any questions which are not answered in this brochure, feel free to ask someone. Or contact the Office of Community Relations, 423 Athabasca Hall, telephone 432-2325.

Admissions Information

The normal minimum prerequisite to admission to a course of study leading to a University of Alberta degree is an Alberta High School Matriculation Diploma or the equivalent. For detailed information regarding entry to the University of Alberta and evaluation of previous study, contact the Admissions Policy, Evaluation and Liaison (APEL) Division of the Office of the Registrar, located on the main floor of the Administration Building.

Athabasca Hall

When Athabasca Hall was completed in 1911 the entire University—45 students and five professors—moved in. From 1908 the University of Alberta had operated in borrowed quarters, but it now had a building of its own. Inside, offices, classrooms, dining room, kitchen, labs, and dormitory rooms were hugger-mugger; outside, cattle grazed and frogs croaked.

Today Athabasca Hall is recognized as an historic site. In 1977 its outside walls were braced and a construction crane was used to remove its roof and scoop out the interior; then a new interior was built, one incorporating some of the features and much of the atmosphere of the old.

Athletics

The University of Alberta has a proud tradition of participation and excellence in athletics. At the intercollegiate level the men—competing under the name *'Golden Bears'*—and the women—competing as the *'Pandas'*—have brought home many honors. Equally important, the University boasts a well established and supported intramural program.

For information regarding scheduled athletic competition, contact the Department of Athletic Services in the Physical Education and Recreation Centre.

Art Galleries

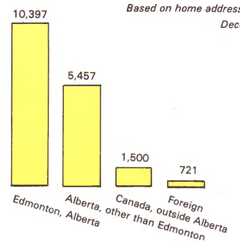
Art exhibitions are regularly held at two galleries on campus: the *Students' Union Gallery* in the Students' Union Building and the University's *Ring House Gallery*. During the year, the Students' Gallery features a wide variety of styles and media, and exhibits range from the work of student and local artists to national displays. The Gallery is open from 11 a.m. until 5 p.m. on weekdays and from 1 p.m. until 5 p.m. weekends (during the summer months, hours may vary).

The *Ring House Gallery* normally features displays from the University's permanent collections and from exhibits travelling throughout Canada and the United States. Displays change monthly and the Gallery is open from 11 a.m. to 4 p.m. weekdays, except Thursdays when it is open until 9 p.m., and from 2 p.m. to 5 p.m. on Sundays.

From the Latin Vulgate version of the Bible, Chapter 4, Verse 8 of St. Paul's Epistle to the Phillipians, the University takes its motto, *quaecumque vera*. In the King James version, this phrase is given as *"whatsoever things are true."*

Sources of Students

Based on home addresses of students, December 1, 1979



Campus Tours

Throughout the year, the University welcomes requests for group tours of the campus and does its best to tailor the tours to meet the group's special interests. Also, at times regularly scheduled guided walking tours of the campus are conducted for interested individuals. In addition, special group visits can be arranged to the *Campus Observatory* atop the Physics Building, and each spring classes of preschool and elementary school children are invited to take part in the very popular tours of the *University Farm.*

For more information regarding campus tours, contact the Office of Community Relations, Room 423, Athabasca Hall.

The Golden Bear soccer team brought home the first national intercollegiate athletic championship in 1979-80. The preceding year the Golden Bear hockey squad and the Panda gymnasts established national supremacy. (left)

For many urban children, their first exposure to some of the common domestic animals comes during a tour of the University Farm. A Farm Tour Program is organized each spring. (right)

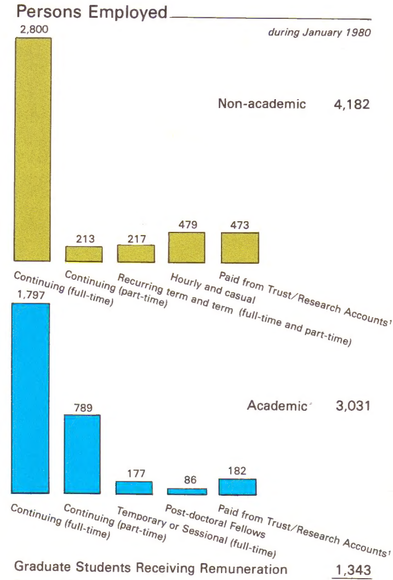
Convocation Hall

The western annex to the Arts Building owes its name to the fact that in the University's early years it was the setting for the annual convocation ceremonies. Although the size of present convocations precludes its continued use for that purpose—Spring Convocation ceremonies now take place over a four-day period in the large Northern Alberta Jubilee Auditorium—Convocation Hall is still an important part of campus. Recently restored and with an impressive new memorial organ in place, it accommodates numerous musical recitals and concerts, and for most there is no admission charge.

Information regarding coming musical events in the Hall can be obtained from the Department of Music, Fine Arts Centre.

Persons Employed

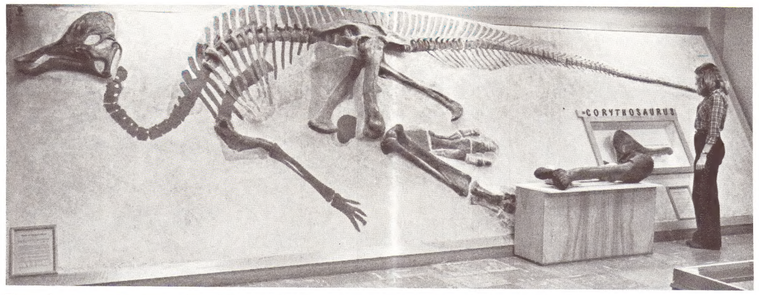
during January 1980



Graduate Students Receiving Remuneration 1,343

Persons Employed at the University of Alberta 8,556

' *the salaries of these people are paid by outside agencies through accounts administered by the University*



The geology museums, open to the public on weekdays, are popular with school groups. Shown here is an exhibit in the paleontology collection. (above)

The Ring House gallery is open to the public six days a week. (right)

Devonian Botanic Garden

The 77-hectare Garden, reached by travelling 10 kilometres west of Edmonton on Highway 16, then 15 kilometres south on Highway 60, contains more than 25,000 plants and shrubs in a naturalistic setting. The world's most northerly botanic garden, it features sights such as crocuses from the mountains of Western Europe, a collection of peonies and a wide variety of herbs and desert plants, in addition to the native plants of Alberta.

The garden is open to visitors from 1 p.m. to 6 p.m. daily, May to September; there is no charge for admission.

HUB provides apartment-type housing on campus for almost 1,000 students. The unique complex features a long glass-covered shopping mall.

Food Outlets

University operated lunchrooms are located in most of the major buildings on campus. Larger University cafeterias are located in the Central Academic Building, the Students' Union Building, and in Lister Hall. The Students' Union operates two food outlets, Room at the Top in the Students' Union Building and Fridays in HUB. In addition, a cafeteria is part of the Graduate Students' Centre in the Power Plant, and a variety of specialty eating places can be found in HUB and in the area east of campus.

Geology Museums

On the basement level of the Geology wing of the Agriculture Building are museums housing interesting collections of minerals, fossils, and rocks. The mineral, paleontology, and petrology collections are housed in Rooms 90, 81, and 75 respectively. These museums, maintained by the Department of Geology, are open to visitors from 8:30 a.m. until 4 p.m. weekdays.

HUB

Sometimes described as an apartment building laid on its side, HUB (the Housing Union Building) straddles 112 Street north of 89 Avenue, providing on-campus, apartment-type housing for about 950 students. The building owes its existence to the Students' Union but is now owned and administered by the University. It features a 950-foot long glass-covered shopping mall along which are located a variety of specialty shops and eating places.

Libraries

In October 1979 the University of Alberta Library acquired its two millionth volume; in addition, there are sizeable collections of government and other documents, periodical subscriptions, material in microform, and audiovisual aids. The bulk of the collection is housed in the *Cameron* and *Rutherford Libraries, H.T. Coutts (Education) Library,* and the *John A. Weir Memorial Law Library.*

Members of the public are invited to make use of the University libraries; however, academic and administrative concerns make the extension of borrowing privileges outside the University community impossible.

Rutherford House

Alberta became a Canadian province on September 1, 1905; the following day, A.C. Rutherford became the Province's first premier. Dr. Rutherford was instrumental in the founding of the University, and in the northeastern corner of campus is located the house that was for many years his home. It is now a Provincial Historic Site.

The house is furnished in the style of the period 1911 to 1915—the first years of Dr. Rutherford's residency—and visitors are welcome to tour inside; guides are in attendance. In the summer from the Victoria Day weekend to the Labour Day weekend, the house is open from 10 a.m. to 8 p.m. daily. For the remainder of the year it is open only from noon until 6 p.m., Saturdays and Sundays, but group tours at other times can be organized by phoning 427-5708.

Tropical Display Greenhouse

A taste of the tropics is offered at the University of Alberta by the Plant Science Tropical Display Greenhouse, located just south of the Agriculture Building. Plants from all areas of the tropics combine to form a mini-rainforest and guides are available to identify the various species. The greenhouse is open to the public from 9 a.m. until 3:30 p.m. weekdays and from 2 p.m. to 4 p.m. on Sundays.

Student population

Please note : These figures do not include the many thousands who enrol in general interest and upiloma courses in the Faculty of Extension each year.

statistics December 1, 1979

part-time students

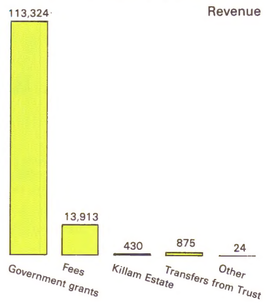
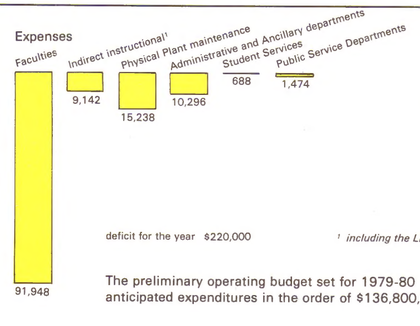
Total number of full-time students: 18,075
Total number of part-time students: 3,041

Operating Budget 1978-79 fiscal year

All figures are in thousands of dollars.





deficit for the year $220,000

[1] *including the Library*

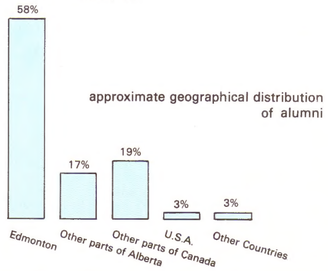
The preliminary operating budget set for 1979-80 anticipated expenditures in the order of $136,800,000.

University Bookstore

The two-floor University of Alberta Bookstore located in the Students' Union Building is one of the largest of its kind in Canada. The upper floor features stationery and other supplies, periodicals, sports equipment and a wide variety of University of Alberta crested material. On the lower floor are texts required for the University courses, other reference books, and general reading materials.

Alumni

When the names of the new graduates from the 1979 Spring Convocation were added to the University's Alumni Records they brought the total number of alumni on file to more than 80,000.



In the autumn, the riverbank below the campus is an eye-catching blend of dark evergreens and decidious trees seasonally golden. From this scene came inspiration for the University's choice of colors: green and gold.
